

Si-30

mini condensate removal pump

N006_00 édition 14/07

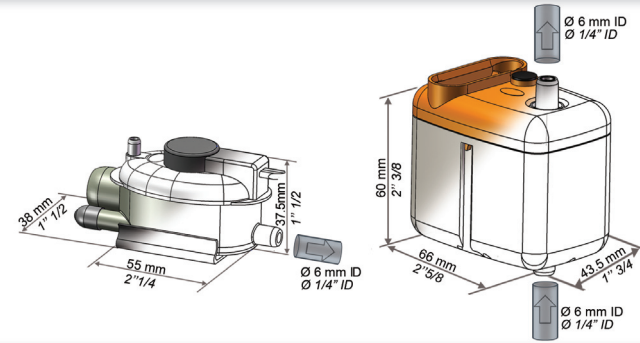

www.sauermannpumps.us

Manufactured to

specification

- › Engineered in partnership
- › Best-in-class reliability, manufactured specifically for condensate removal
- › Patented 5 gph pump technology
- › Specific wiring schematic for Daikin models (see reverse page)
- › Complete with Drain Safe Device

ONE PUMP

- One pump suitable for ALL Daikin models from 0 to 42 kBtu/hr (12.5 kW – 3.5 tons)
- 5 gph
- High capacity, less run time = RELIABILITY

SILENT OPERATION

- High performance with low operating sound levels
- Flexible & Easy to install and maintain
- Ideal for Bedroom use

COMPLETE INSTALLATION KIT INCLUDED

Everything you need for a complete installation

- Unique self sealing discharge fitting included
- Drain Safe Device
Combines mechanical and gravity drain
Allows condensates to clear efficiently, keeping the pump primed at all times.
